

# Layers of Learning

The world is so full of  
a number of things,  
I'm sure we should all  
be as happy as kings.

At Layers of Learning, we love learning. The world really is a fascinating place. History, geography, science, arts, literature, and writing get us excited. They're the way we learn about everything on this planet and beyond.

Come with us on a journey through this innovative series where organization and repetition are coupled with hands-on fun and family-style learning.
